

## Living Lab Circular Wood Cluster Grensland

### PARTNERS:

Een samenwerking van:

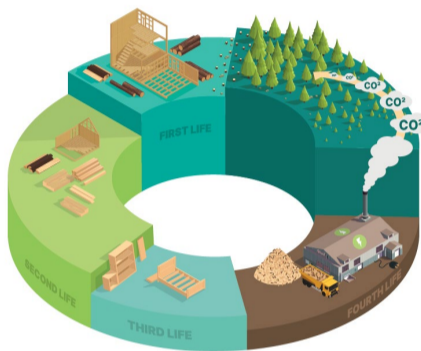

### COUNTRY: Belgium

Met de steun van:

COORDINATOR/MAIN CONTACT: Imke De Windt ([imke@wood.be](mailto:imke@wood.be))

### DESCRIPTION/OBJECTIVE:

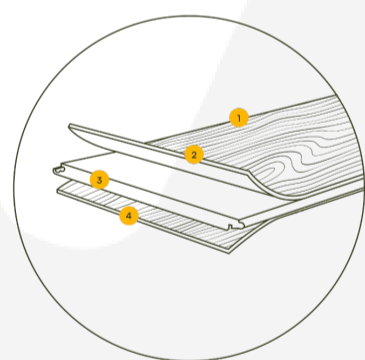

Main objective: to make the **lifespan of wood** and wooden products as long as possible and **at least equal to the growth cycle** of quality wood (80 to 120 years)

- Potential for high-quality cascading

## RESULTS & CHALLENGES

**Living Lab** = research + implementation of the 9R strategy

**Main results:** circular innovations in flooring, cladding, terrace and furniture

**Further needs & challenges:** availability of biobased glues, market acceptance, circular business models, collaboration, regulation, public procurement, ...
